# Bon Bon Carpigiani display

The success of soft ice cream grows! The consumer appreciates the freshness and the smoothness because each serving is uniquely and instantaneously produced. The quality of this ice cream is guaranteed with the technology of the Carpigiani machines which are known all over the world not only for the quality of the ice cream produced but also for their reliability, simplicity of use and maximum hygiene.

Soft ice cream is excellent alone but can become an indulgent dessert if enriched with toppings, crunch, fruit, chocolate...

The BON BON DISPLAY 223 is a professional tool that Carpigiani has created in order to contain and present all the ingredients useful to decorate the soft ice cream in front of the customer.

It's made of stainless steel and has a tempered glass protection. The top has 22 stainless steel containers at 3 temperatures, to hygienically display all the indulgence garnishments; it is supplied with a central working area, fitted with a stainless steel tray.

- A) 14 COLD CONTAINERS (+ 5 °)  
For toppings, fruits and chocolate crunch
- B) 2 HOT CONTAINERS (+ 45 °)  
For heated caramels, toffee or chocolate toppings

- C) 6 AMBIENT CONTAINERS  
For crunch, biscuits and dry decorations
- D) 2 REFRIGERATED UNDER COUNTER STORAGE AREAS (+ 5 °)  
For the storage of perishables such as fruits, etc...
